## Microsoft Dynamics NAV roadmap

## The Power of Microsoft

Before you make that important decision to invest in any software package, it pays to know the people behind it and for how long they have been in business. Behind e-Jewelry Software is the tech giant Microsoft Corporation, founded by William (Bill) H. Gates over a quarter a century ago. Today, Microsoft remains a global technological force with success and reliability in developing software solutions that help people and businesses realize their full potential. Now you know.
