

FREQUENTLY ASKED QUESTIONS

What is Microsoft Dynamics NAV?

Microsoft Dynamics™ NAV is a strong player in the mid-market enterprise software lineup, often mentioned as a great choice for mid-size organizations with five to five hundred computer-using employees. It is especially suited for companies in the retail, wholesale, distribution and manufacturing industries.

The multi-language and multi-site capabilities allow Microsoft Dynamics™ NAV to compete in a global scale. To date, it can support nearly any kind of business.

QUESTIONS

ANSWERS

How is it sold?

Through a network of over 3,400 Microsoft partners worldwide.

How user friendly is it?

If you already know windows, word, excel, outlook, SQL and any other Microsoft products, you are in luck. It looks and flows very similar.
