

## INTEGRATION (THE MICROSOFT ECOSYSTEM)

### Microsoft Dynamics NAV Seamless Integration

With Microsoft Dynamics ERP acting as it's most reliable platform, you can easily connect and integrate e-Jewelry Software with external data sources and applications, even if they're not built on Microsoft platforms, by using Web Services and the Microsoft .NET Framework.

In addition to that, partners and customers can integrate their Microsoft Dynamics ERP solutions with optional third-party applications in the hosted environment. Please note that all these Add-Ons are purely optional.

### The Integration includes but is not limited to:

- CRM Integration
- Point of Sale Integration
- Mobile & Device Integration
- Payroll Integration
- Business Intelligence (BI) Integration
- EDI, E-Ship, FedEx & UPS Integration
- E-commerce Integration
- Jet Reports Integration
- RFID Integration
- Bar Coding & Label Printing Integration
