Roadmap

Microsoft Dynamics 365 Business Central

This spring, Microsoft introduced a new system that brought together Microsoft Dynamics NAV and Microsoft Dynamics 365. With these changes, Microsoft Dynamics 365 Business Central is replacing Microsoft Dynamics NAV.

It brings together the capabilities of Microsoft Dynamics NAV and the current Microsoft Dynamics 365, making one powerhouse system that will be an SMB focused ERP (Enterprise Resource Planning) app. The two offerings are:

- **Dynamics 365 Business Central Essentials**
- **Dynamics 365 Business Central Premium**
