

WHY PURCHASE A MICROSOFT ERP SYSTEM?

Microsoft has a complete vision for business applications, and it goes beyond what a simple stand-alone ERP solution or accounting software can do. It starts with a unique combination of business intelligence, collaboration, and communication tools embedded across your core business processes.

The result— empowered people who make decisions that help increase your margins, improve your cash flow, and ultimately drive your business growth.

Seven Reasons for You!

- **Microsoft Dynamics ERP** has offered proven solutions for customers like you for more than 25 years, delivering capabilities that fit the way you work—so you will not have to change it!
- **Deploy on-premises**, in the cloud, or in a hybrid approach, whatever makes the most sense for you.
- **Integrate** your vital line-of-business applications quickly and easily, and choose among a wide range of third-party software that runs on the Microsoft technology platform.
- **Get more value** out of the other Microsoft products you already use because Microsoft Dynamics ERP solutions work like and with them.
- **Manage ERP cost** predictability through cloud-based deployment options, user-based licensing, and by working with Microsoft partners for deployments and ongoing local support.
- **Microsoft financial stability**, clear technology vision, clear product roadmaps and deep global experience allow you to plan your own technology future with confidence.
- **Finally**, we can also point with pride to thousands of real-life customers around the world who are turning their business vision into reality with help from Microsoft ERP solutions.
